Voltage Rating:

440.0 volts

Heating Method:

Steam

Steam Supply System For Which Designed:

Self-contained steam generator

Exterior Shell Material:

Steel, stainless

Inside Height:

30.39 inches

Inside Width:

23.26 inches

Inside Depth:

23.63 inches

Product Name:

6 pan, electric boilerless convection

Environmental Attribute Code:

Steam cookers - energy star-commercial food service equipment - energy efficient products

Supplementary Features:

Manual filled

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T281-k
