Overall Length:

3.938 inches

Overall Height:

0.562 inches

Overall Width:

7.875 inches

Battery Quantity:

5

Keyboard Type:

Scientific and statistics

Operation Method:

Disposable battery

Unit Type:

Programmable

Power Source:

Aaa battery and button battery

Display Type:

Light emitting diode (I.E.D.).

Digit Entering Capacity:

40

Programming Method:

Keyboard

Special Features:

Pocket computer; 1101 built in engineer software functions for math, science, engineering and statistics; wide screen 4 lines

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T084-c
