Environmental Protection:

Water resistant

Material Transparency:

Clear

Length:

60.0 yards

Min. Tensile Strength (psi):

30 pounds per square inch

Nominal thickness:

0.0030 inches

Adhesive Location:

One side

Special Features:

Used for paint masking on airplane canopys

Color:

Silver

Material:

Aluminum coating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A14300
