Environmental Protection:

Heat resistant and cold resistant

Material Transparency:

Translucent

Width:

1.000 inches

Length:

72.0 yards

Temperature Rating:

Between -60.0 degrees fahrenheit and 300.0 degrees fahrenheit

Min. Tensile Strength (psi):

20 pounds per square inch

Core Diameter:

3.000 inches

Nominal thickness:

0.0030 inches

Adhesive Location:

One side

Color:

White

Material:

Plastic polyester basic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A14300
