Material Transparency:

Translucent

Width:

6.000 inches

Length:

60.0 yards

Temperature Rating:

Between 20.0 degrees fahrenheit and 300.0 degrees fahrenheit

Features Provided:

Liner

Core Diameter:

3.000 inches

Nominal thickness:

0.0100 inches

Adhesive Location:

Both sides

Special Features:

Liner is 0.004 in. Tk

Color:

Natural

Material:

Plastic cellulose acetate

Supplementary Features:

Hi-tech adhesive designed for mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A14300
