Width:

1.500 inches

Temperature Rating:

Between -75.0 degrees fahrenheit and 50.0 degrees fahrenheit

Nominal thickness:

17.0 mils

Adhesive Location:

One side

Special Features:

Foils with synthetic rubber adhesive; blue polyethylene liner; used for vibration damping on panels and steel supports

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A14300
