Surface Luster:

Gloss

Environmental Protection:

Corrosion resistant and weather resistant

Material Transparency:

Clear

Width:

150.0 millimeters

Length:

36.0 yards

Tempurature Rating:

200.0 degrees fahrenheit

Min. Tensile Strength (psi):

70 pounds per square inch

Nominalthickness:

0.014 inches

Adhesive Location:

One side

Product Name:

3m polyurethane protective tape

Special Features:

Resists punctures, tearing, abrasion, and erosion; formulated for long-term resistance to ultraviolet light; may be painted or applied over painted surfaces

Color:

Colorless

Material:

Plastic polyurethane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A14300
