Perforation Shape:

Round

Die Diameter:

0.250 inches

Die Center Reach To Throat End:

1.000 inches

Adjustable Throat Gage:

Not included

Feed Clearance:

0.219 inches

Special Features:

Unit type - handheld; operating mechanism manual; hand squeeze puncher material metal; sheet capacity 5 sheets to 8 sheets basis weight 20 lbs., duty rating light hole type round hole quantity type 1 adjustable throat gage not included, puncher type plier handle design curved to fit the hand, handle material finish knurled and plastic coated i.A.W. Normal commercial practice; handle operating mechanism spring loaded so that they return to the open position once compression on the handles is removed; spring mechanism use shall withstand repeated compressions without losing resilience environmental protection corrosion resistant

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T302-e
