Publication Media Type:

Paper support

Document Title:

Dna markers: protocols, applications and overviews

Subject Matter:

Dna fingerprinting and nucleic acid hybridization

Author:

Gustavo caetano-anolles; peter g ressholf

Publication Date:

1997

Publisher:

Wiley-vch

Publisher Address:

New york city

National Language:

English

Special Features:

Spiral bound, 364 pgs; illustrated w/bibliography and index; 21 chapters; subject: dna fingerprinting, nucleic acid hybridization

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T110-b
