Publication Media Type:

Paper support

Document Title:

Control and measurement of ion bombardment energies at substrates biased with tailored voltage waveforms

Subject Matter:

Dissertation

Author:

Patterson, marlann maringo, phd

National Language:

English

Special Features:

The university of wisconsin, madison, 2005, 112 pp, advisor wendt, amy e

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T110-b
