Publication Media Type:

Paper support

Document Title:

Handbook of microscopy for nanotechnology

Subject Matter:

Provides overview of basics and applications of various microscopic techniques for nanotechnology

Author:

Nan yao (editor) and zhon wang (editor)

Publication Date:

2005-03

Publisher:

Kluwer academic publishers

National Language:

English

Binding Feature:

Hard cover

Special Features:

742 pages; 20 illustrations in color; isbn-13: 9781402080034

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T110-b
