Width:

Between 1.610 inches and 1.630 inches

Thickness:

2.000 millimeters

Length:

Between 0.570 inches and 0.590 inches

Attachment Method:

Pressure sensitive adhesive

Basic Shape Style:

A1a square w/rounded corners

Adhesive Location:

Back

Inscription:

Partial reference designations are shown: prefix with unit number or subassembly designatio (s) or both for complete designation

Product Name:

Label-designation, abbreviation note

Color:

Black inscription background

Material:

Plastic

Material Specification:

3m scotchcal 3655 mfr ref all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A529g0
