Width:

Between 1.230 inches and 1.270 inches

Thickness:

0.031 inches

Length:

Between 1.480 inches and 1.520 inches

Environmental Protection:

Chemical resistant and hydraulic fluid and solvent resistant and salt spray resistant

End Application:

An/alq131 ecm pod

Basic Shape Style:

A1a square w/rounded corners

Inscription Height:

0.160 inches

Inscription:

Danger high voltage 10,000 volts

Features Provided:

Sheet

Product Name:

Label, warning

Special Features:

First word inscription danger is 0.160 in. In, h, second line is high voltage is 0.140 in, h, third inscription is 10.000 volts is 0.20 in h. Upper left corner has a hole 0.187 in. Dia

Color:

White inscription and black inscription

Material:

Plastic polyvinyl chloride

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A529g0
