Width:

Between 64.7 millimeters and 65.3 millimeters

Thickness:

Between 0.9 millimeters and 1.1 millimeters

Length:

Between 149.5 millimeters and 150.5 millimeters

End Application:

Tractor, wheeled, industrial

Basic Shape Style:

Rectangular

Usage Form:

Singular

Product Name:

Plate, instruction

Special Features:

Transportation plate, bucket

Material:

Aluminum

Material Specification:

A-a-50271 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A529m0
