Mounting Type:

Wheel

Design Type:

Horizontal tank

Operation Method:

Air

Unpackaged Unit Weight:

2000.0 pounds

Minimum Air Pressure Required:

60.0 pounds per square inch

Water Lift Design Feature:

Included

Special Features:

Tank capci type 275 gal

Supplementary Features:

Air operated; yellow epoxy finish; tow bar with steering linkage and brake assembly; tow at road speeds up to 35 mph; four 15 inch pneumatic tires; 2 inch drain valve; static grounding reel with 50 ft ground wire and clips; liquid level and sight flow gauges with check valve; mechanical wheel brake; hose rack; fuel sump recovery unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T309-a
