Mounting Type:

Wheel

Voltage Rating In Volts:

115.0 ac

Horsepower Rating:

3.1

Design Type:

Canister

Operation Method:

Electric

Water Lift Design Feature:

Included

Special Features:

Stac-vac, wet-dry vacuum; 3 main pieces - top module contains vacuum motor, the middle a waste recovery tank, and the bottom a pump and solution tank; used in different combinations

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T309-a
