Mounting Type:

Wheel

Separator Type:

Exposed

Design Type:

Canister

Operation Method:

Air

Minimum Air Pressure Required:

90.0 pounds per square inch

Air Consumption Rate:

30cfm

Revolving Brush:

Included

Blower Outlet:

Not included

Water Lift Design Feature:

Not included

Special Features:

Lightweight explosion-proof portable pneumatic ulpa vacuum system suitable for use on airframes; sanders and abrasives are designed for light to moderate removal of paint and corrosion on airframes and aircraft skins; ulpa filter efficiency of 99.999 pct. Come in a carrying case

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T309-a
