Mounting Type:

Wheel

Design Type:

Vertical tank

Operation Method:

Air

Minimum Air Pressure Required:

80.0 pounds per square inch

Air Consumption Rate:

20.0 cfm at 80 psi

Product Name:

Portable vac system

Special Features:

10 gallon capacity; air pressure psig 110-120; water tatic lift inch 90; sound level 73; shipping weight pounds 48.4; height inch 44; width inch 19; sparkfree operation; top of vacuum head designed to work as a shelf to hold air tools, sandpaper, etc; filter element is water resistant and washable; includes set of 5 dust bags

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T309-a
