Physical Form:

Concentrated liquid

Issue Form:

Emulsion

Asphalt Surface Usage Feature:

Not included

Water Usage:

Required

Primary Container Content Quantity:

55.000 gallons

Total Primary Container Quantity:

1

Special Features:

55 gal drum; concentrated biodegradable, non-flammable, non-toxic, water-soluble, non-terpenemnon-ozone depleting degreaser designed to be diluted with water to replace hazardous cutting solvents in cold applications, rapidly overcomes surface tensions and lifts soil, emulssifies and suspends materials such as petroleum, animal oils, organic oils and greases, green liquid with mild odor; (refer to fss 79 vi)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T329-a
