Volatile Organic Compound In Grams Per Liter:

0.31

Err Default:

Err default

Environmental Attribute Code:

Low volatile organic compound - household consumer products

General Description:

Super-concentrated, industrial-strength, multi-purpose cleaner that provides enhanced grease and soil removal by the utilization of unique colloid-active components; all surfactants in the product are biodegradable; phosphate-free, enzyme-free, odorless, non-flammable, non-corrosive; contains no acids, caustics, solvents; excellent for use in either hard, soft, fresh, or salt water; recommend for a broad spectrum of industries, including fast-food, restaurant, food processing, manufacturing, maritime, janitorial, hospitality, institutional, and vehicle wash; ideal for use on all surfaces not harmed by water alone, including ferrous and non-ferrous metals, glass, fabric, plastic, porcelain, rubber, and vinyl; quickly penetrates tenacious soils and disperses them into ultra-small particles or droplets that can be easily and safely flushed away with water

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
