Oil And Water Absorbent Material - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/7930-01-642-7996

Material Type:
Silica minerals
Product Name:
Molsiv absorbent type 4a
Special Features:
Sodium form of the type of crystal structure, alkali metal almino-silicate; type 4a will absorb molecules w/critical chambers up to 4
angstroms; available in powder form
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
Т329-е
