Specific Use:

Metal

Physical Form:

Liquid

Quantity Within Each Unit Package:

1.000 gallons

Solvent Type:

Alkali

Features Provided:

Nonflammable

Special Features:

Acid/phenolic type; for removing polyurethane, epoxy and other chemically resistant coatings; safe to use on aluminum, copper, mild and stainless steel; low phenolic content

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A09700
