Volatile Organic Compound In Grams Per Liter:
420.0
Color:
Gray
General Description:
Polytetrafluoroethylene filled polyurethane; federal standard 595 color no. 36375; flat finish; consists of 2 quarts of base and 1 quart of
activator; 10 hr dry through time; apply by spray or roller; for use on aircraft surfaces where low friction, abrasion resistance, impact
resistance and chemical resistance are required to reduce chafing and wear such as on slats, exit door areas, flap tracks and horizontal
fuselage intersections
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
