Specific Use:

Aircraft fabric surfaces

Application Method:

Brushing, after thinning or spraying after thinning

Content Within Each Unit Package:

Part a plus part b to equal 1 gallon

Storage Type:

Temperature controlled warehouse

Features Provided:

Chromate free and flammable

Pigment Material Type:

Titanium dioxide

Vehicle Material Type:

Epoxy

Rated Drying Time:

8.000 hours

Special Features:

Conductive primer, resistivity of 2.0 megohm/square at 2 to 3 mils thick, for nonmetallic surfaces

Color:

Gray, dark

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A09700
