Application Method:

Spraying as is

Content Within Each Unit Package:

20 gallons of part a and 5 gallons of part b

Rated Drying Time:

60.000 minutes

Color Chip Number:

27769

Volatile Organic Compound In Grams Per Liters:

420.0

Special Features:

Application type-cold; vehicle matl type-polyurethane; used for fire and thermal barrier coating; temp range-0 to 2000 degrees f; has fire retarding characteristics

Color:

White

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A09700
