End Application:

8010-01-327-5404

Quantity Within Each Unit Package:

1.000 gallons

Storage Type:

Temperature controlled warehouse

Features Provided:

Chromate free and flammable

Basic Material Type:

Aliphatic hydrocarbons and aromatic solvent

Distillation Temperature Range:

+352.0/+418.0 degrees fahrenheit

Material Type For Which Designed:

Resin

Special Features:

Used w/albi107a heat resisting paints

Media For Which Designed:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A09700
