Specific Use:

Metal or primer coat

End Application:

F-22 acft

Application Method:

Spraying as is

Content Within Each Unit Package:

2-volumes component a and 1-volume component b; reduced by 4.1-volumes water

Features Provided:

Flammable and removable with water

Pigment Material Type:

Strontium chromate

Vehicle Material Type:

Epoxy

Rated Drying Time:

60.000 minutes

Volatile Compound Content:

0.337 grams per liter

Special Features:

Two part kit reduced with distilled or deionized water; available in quart or gallon size; 4 hr potlife at 77 degrees f and 50 pct relative humidity

Color:

Green

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A09700
