Application Method:

Spraying after thinning

Quantity Within Each Unit Package:

1.000 gallons

Storage Type:

Temperature controlled warehouse

Gloss Designation:

Semigloss

Nonvolatile Material Minimum Percentage:

65.0

Coloring Method:

Pigmented

Basic Formulation Type:

Resin modified polyurethane

Rated Drying Time:

3.000 hours

Color Chip Number:

27038

Product Name:

Polyurethane

Volatile Compound Content:

2.8 pounds per gallon

Special Features:

Formulated for protection of ground support equipment; pot life up to four hours but under high temperatures its less than four hours. Provides protection against weathering, humidity, impact resistance, jet fuels, lubricating oils, distilled water, and hydraulic fluids. Material is certified for one year from date of manufacturing. Product contains teratogenic & carcinogenic known to the state of california tocause cancer or birth defects or otherreproductive harm. This material when packaged in containers of 1-liter or less, qualifies as paint in limited quantity of class three

Color:

Black

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
