End Application:

F-22

Storage Type:

Temperature controlled warehouse

Features Provided:

Flammable

Gloss Designation:

Flat

Basic Formulation Type:

Polyurethane

Color:

Clear or white or yellow

Supplementary Features:

Use in well ventilated area or spray booth, keep away from open flame and temp over 100f, rcra hazardous ignitable waste, curing agent becomes a corrosive liquid when water is added, 8oz kit, 100g resin part a, 12.5g part b, 20g curing agent, 15g accelerator mixing sticks and droppers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A09700
