Volatile Organic Compound In Grams Per Liter:

420.0

Color:

Gray

General Description:

Polytetrafluoroethylene filled polyurethane; federal standard 595 color no. 36173; flat finish; consists of base and activator to equal 1-1/2 gallons; 10 hr dry through time; apply by spray or roller; for use on aircraft surfaces where low friction, abrasion resistance, impact resistance and chemical resistance are required to reduce chafing and wear such as on slats, exit door areas, flap tracks and horizontal fuselage intersections

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
