Application Method:

Roller or spraying as is

Quantity Within Each Unit Package:

1.000 quarts

Content Within Each Unit Package:

Consists of 2 pounds by weight of component a (base) and component b (curing agent) to yield 1 quart by volume

Features Provided:

Lead free and chromate free

Basic Formulation Type:

Polyurethane

Rated Drying Time:

24.000 hours

Special Features:

Iron filled; for reducing radar cross section of objects, reducing false echo or ghost images on ship radar, and to attenuate surface currents generated by radiation impinging on metal surfaces; for service temperatures up to 302 degrees f

Color:

Gray, dark

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A09700
