**Application Method:**

Spraying after thinning

**Gloss Designation:**

Gloss

**Pigment Material Type:**

Strontium chromate and epoxy and silica

**Vehicle Material Type:**

Natural crystalline flake and epoxy

**Finish For Which Formulated:**

Fine

**Product Name:**

Primer 37092

**Special Features:**

Dry film thickness: 20 - 30 um 0.8 - 1.2 mil, application: temperature; 15-35 degree c or 59 - 95 degree f, relative humidity: 35 - 75%, gloss (60 degree) 20 gu, color: green/yellow, bac 452 black, storage: product dry @ temperature between 5 & 25 degree c/41 & 77 degree f in unopened container. Shelf life: primer 24 months, flammable.

**Color:**

Black and green and yellow

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A09700
