Physical Form:

Liquid

Quantity Within Each Unit Package:

3.500 kilograms

Specific Usage Design:

Protective coating for busbars, end turns of motor windings, equipment covers, insulator pins, splices and transformers

Rated Drying Time:

25.000 minutes

Special Features:

Room temperature vulcanizing; resistant to uv radiation and weathering; service temperature range of minus 75 degrees f to plus 350 degrees f, intermittent use to 400 degrees f

Color:

Gray

Material:

Silicone

Supplementary Features:

3.5 kilogram can

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A536d0
