Physical Form:

Liquid

Quantity Within Each Unit Package:

1.000 gallons

Specific Usage Design:

Use as a faying surface sealing compound in integral fuel tanks and pressurized cabins

Rated Working Time:

24 hours

Features Provided:

Separate catalyst

Rated Drying Time:

10.000 days

Color:

Green

Material:

Resin synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A536d0
