Tempurature Rating:

2400.0 degrees fahrenheit

Basic Ingredient:

Molybdenum disulfide

Quantity Within Each Unit Package:

1.500 pounds

Usage Design:

Solid film lubricant

Special Features:

Dark gray; paste; temperature resistant to 750 degrees f as dry film lubricant, 2400 degrees f as anti-seize

Supplementary Features:

1.5 pound can

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535n0
