Physical Form:

Liquid

Quantity Within Each Unit Package:

1.000 gallons

Specific Usage Design:

For aerodynamic smoothing applications on exterior aircraft surfaces

Features Provided:

Separate catalyst

Special Features:

Self-leveling; jet fuel resistant; room temperature curing

Color:

Silver

Material:

Plastic polyurethane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A536d0
