Application Method:

Fingers

Quantity Within Each Unit Package:

4.000 ounces

Usage Design:

For rf shielding and grounding applications

Special Features:

Polyisobutylene

Material:

Rubber synthetic

Supplementary Features:

4 ounce tube

Specification Data:

81205-bms5-35 professional/industrial association standard

Specification Or Standard:

3 type and b grade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A535r0
