Physical Form:

Liquid

Quantity Within Each Unit Package:

5500.000 grams

Specific Usage Design:

For reducing radar signature of aircraft, vessels or ground structures

Features Provided:

Separate catalyst

Special Features:

Magnetic particle filled; corrosion resistant; 3-part kit containing polyurethane coating, curing agent and accelerator

Color:

Brown

Material:

Plastic polyurethane

Supplementary Features:

5500 gram kit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A536d0
