Physical Form:

Liquid

Quantity Within Each Unit Package:

7.500 pounds

Specific Usage Design:

For use as chocking or grouting compound under marine main propulsion machinery

Features Provided:

Separate catalyst

Rated Drying Time:

24.000 hours

Special Features:

Rated drying time at 70 degrees f

Color:

Orange

Material:

Resin epoxy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A536d0
