#### **Physical Form:**

Liquid

#### **Quantity Within Each Unit Package:**

7.500 pounds

# Specific Usage Design:

For use as chocking or grouting compound under marine main propulsion machinery

#### **Features Provided:**

Separate catalyst

#### **Rated Drying Time:**

24.000 hours

#### Special Features:

Rated drying time at 70 degrees f

Color:

Orange

### Material:

Resin epoxy

# Shelf Life:

Shell L

# N/a

Unit Of Measure:

---

#### Demilitarization:

No

#### Fiig:

A536d0
