Physical Form:

Liquid

Quantity Within Each Unit Package:

4.000 gallons

Specific Usage Design:

For sealing joints in concrete where hydrocarbon and heat resistance to jet blast is required

Features Provided:

Separate catalyst

Rated Drying Time:

12.000 hours

Special Features:

Hand mixed; retarded cure; 3 hour working time

Color:

Black

Supplementary Features:

2 gallons base and 2 gallons curing agent

Specification Or Standard:

H type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A536d0
