Physical Farms
Physical Form:
Liquid
Quantity Within Each Unit Package:
4.000 gallons
Specific Usage Design:
For sealing joints in concrete where hydrocarbon and heat resistance to jet blast is required
Features Provided:
Separate catalyst
Rated Drying Time:
12.000 hours
Special Features:
Hand mixed; retarded cure; 3 hour working time
Color:
Black
Supplementary Features:
2 gallons base and 2 gallons curing agent
Specification Or Standard:
H type
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A536d0
