Tempurature Rating:

250.0 degrees fahrenheit

End Application:

F-22 acft

Physical Form:

Liquid

Specific Usage Design:

Integral fuel tank and fuel cell cavities

Curing Method:

Air dried

Features Provided:

Separate catalyst

Special Features:

Fuel-resistant polysulfide, low specific gravity; room temperature cure; temperature range minus 65 to plus 250 degrees f, withstands short term exposure to 360 degrees f; neither the base compound nor the cured compound shall be red or pink in color

Material:

Resin synthetic

Specification Data:

81343-sae ams 3281b professional/industrial association specification

Specification Or Standard:

C class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A536d0
