End Application:

F-22 aircraft

Err Default:

Err default

Resin Component Ingredients:

Epoxy resin

Rated Drying Time:

Between 6.000 hours and 24.000 hours

Supplementary Features:

Use in well ventilated area, use impervious rubber gloves and apron, curing process is exothermic, shelf life 6 months at 80 degrees fahrenheit or higher, 12 months at 40 degrees fahrenheit or lower

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A53600
