End Application:

Apache attack helicopter

Specific Usage Design:

For sealing and repairing fuel-cell cavities, faying surfaces, and sealing of seams and joined parts on aircraft and weapons components

Rated Working Time:

2 hours

Product Name:

Sealing compounds, synthetic rubber, temperature and fuel resistant

Special Features:

Temperature and fuel resistant m65.0 to 250.0 degrees f

Material:

Resin synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A536d0
