End Application:

F-22 aircraft

Physical Form:

Paste

Product Name:

Non-chromate/corrosion inhibitive sealant

Special Features:

Fuel resistant, rapid cure, has a service temperature range from -67 deg to 250 deg. Provides effective barrier against corrosion on aluminum alloys or between dissimilar metals

Color:

Black

Material:

Rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A536d0
