**Physical Form:**

Liquid

**Specific Usage Design:**

Used to bond cylindrical fitting parts, particularly where strength at elevated temperatures is required, applications include holding gears and sprockets onto gearbox shafts and rotors on electric motors shafts

**Special Features:**

A single component anaerobic retaining adhesive which develops high strength rapidly when confined in the absence of air between close fitting metal surfaces, this product has high temperature resistance properties

**Color:**

Green

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A536d0
