Physical Form:

Liquid

Specific Usage Design:

Used to bond cylindrical fitting parts, particularly where strength at elevated temperatures is required, applications include holding gears and sprockets onto gearbox shafts and rotors on electric motors shafts

Special Features:

A single component anaerobic retaining adhesive which develops high strength rapidly when confined in the absence of air between close fitting metal surfaces, this product has high temperature resistance properties

Color:

Green

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
