Physical Form:
Liquid
Specific Usage Design:
Used to bond cylindrical fitting parts, particulary where strength at elevated temperatures is required, applications include holding gears and
sprockets onto gearbox shafts and rotors on electric motors shafts
Special Features:
A single component anaerobic retaining adhesive which develops high strength rapidly when confined in the absense of air between close
fitting metal surfaces, this product has high temperature resistance properties
Color:
Green
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A536d0
