**Specific Usage Design:**

Provides electrical conductivity and emi/rfi sheilding effectiveness

**Product Name:**

Electrically conductive sealant

**Special Features:**

Used on the eurofighter 2000; electrically conductive; rapid cure; corrosion inhibitive; two part nickel filled epoxy cured permadol p-3.1 polythioether; standard cure 7 days at 77 degf 50 percent rh; cured specific gravi type 1.98; shear strength 185 psi; 9 month storage at 80 degf or below

**Color:**

Black

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A536d0
